## ABSTRACT

The work provides evidences concerning the issue and results of the analysis of constitutional model institutionalization of local self-governance.

It considers problems connected with constitutional limitations and reveals the systemic contradictions in organizational and regulative framework for the local self-governance.

The improvement of the local public administration in Kazakhstan has been carried out through strengthening of the role of government representative bodies which also legislatively represent the local self-government.

**Key words:** self-governance, local representative bodies, public administration, elections, Kazakhstan
